

## **EULA (English)**

x264, LLC, Suite 11745, 548 Market Street, San Francisco, CA 94104 USA provides a H.264 video encoder codec used as component of Siedle Access Professional Server and requires Siedle to conclude a license agreement with the end user of the Integrated Product Siedle Access Professional Server Software in accordance with the requirements stated in the "REQUIREMENTS FOR END USER LICENSE AGREEMENT (EULA)":

### **"REQUIREMENTS FOR END USER LICENSE AGREEMENT (EULA)**

as required by x264, LLC, Suite 11745, 548 Market Street, San Francisco, CA 94104 USA, for the use of the H.264 Video Codec as a component of the Integrated Product: Siedle Access Professional Server Software, where Siedle Access Professional Server is defined more detailed as: a server application that is either running on a Siedle Access Server or on a customer server of an IP door communication system.

This EULA:

1. Restricts the End-User's license to a limited, non-exclusive, non-transferable license to run one (1) copy of the object code version of the x264 Software on one machine, device, or instrument solely as integrated into the Integrated Product.
2. Limits the End-User's rights for network purposes. If the Integrated Product is licensed for concurrent or network use, this EULA prohibits an End-User from allowing more than the maximum number of authorized users to access and use the x264 Software concurrently.
3. Permits an End-User to make copies of the Integrated Product only for backup and archival purposes.
4. Prohibits the End-User from: (a) copying the Integrated Product and/or x264 Software onto any public or distributed network; (b) using the x264 Software to operate in or as a time-sharing, outsourcing, service bureau, application service provider or managed service provider environment; (c) using the x264 Software as a standalone application or any other purpose than as integrated into the Integrated Product; (d) changing any proprietary rights notices which appear in the x264 Software or the Integrated Product; or (e) modifying the x264 Software.
5. Permits the End-User to transfer the license granted by the EULA only if (a) End-User complies with any transfer terms imposed by Licensee and delivers all copies of the Integrated Product to the transferee along with the EULA; (b) transferee accepts the terms and conditions of the EULA as a condition to any transfer; and (c) the End-User's license to use the Integrated Product terminates upon transfer.
6. Requires the End-User to comply with all applicable export laws and regulations.
7. Requires End-User to immediately destroy all copies of the Integrated Product and x264 Software upon termination of the EULA."

End users of Siedle Access Professional Server Software must accept the REQUIREMENTS FOR END USER LICENSE AGREEMENT (EULA), as specified by x264, LLC, in order to use the Siedle Access Professional Server Software. Siedle licenses the Siedle Access Professional Server Software to end users only in case they accept the requirements specified by x264, LLC. End users may not use Siedle Access Professional Server Software, if they do not agree to accept those license requirements
